Bio: Eve is very funny and is always making us laugh. She is also kind and caring and loves animals. We have a house full of them thanks to Eve's enthusiasm! Eve loves drama and loves being characters and talking in accents, doing magic or telling jokes. She can be quiet at first with strangers but once she relaxes there is no stopping her inner performer. She wants to be a scientist one day and invent a flying car. I have no doubt she'll do it!
